

## Information needed from Student Award Winners website

**Name:** Shannon L. Roberts

**Poster or Platform Winner:** Poster

**Contact Email and Telephone:**

shannon.roberts@mail.utoronto.ca  
647-234-7187

**Current Position:**

PhD Student, Division of Anatomy, Department of Surgery, University of Toronto

**Advisor:** Anne Agur, PhD

**Undergrad/Graduate degree (previous):**

BA, McGill University

**Hometown:**

Barrie, Ontario, Canada

**Hobbies Special Interests:**

Reading and writing

**Title of Presentation:**

“Pectoralis minor transfer for facial reanimation: Architectural study of donor and recipient muscles”

**Two to Three Sentences on Research Interests:**

My research focuses on collaborating with clinicians to provide an anatomical basis to improve clinical practice and optimize clinical outcomes. My research interests include the: (1) innervation of the sacroiliac joint and its relationship to clinically relevant to bony landmarks; and (2) musculotendinous architecture, intramuscular innervation and neuromuscular partitioning of skeletal muscle, with a focus on the shoulder girdle and upper limb.

**Teaching Interests:**

Gross Anatomy and Neuroanatomy
